

MOHAMMED ALGHAFLI

Junior Data Analyst

Al-Ahsa, Saudi Arabia | +966 54 374 1088 | xr3g77@gmail.com
[linkedin.com/in/mohammed-alghafli](https://www.linkedin.com/in/mohammed-alghafli) | github.com/xr3g77

PROFESSIONAL SUMMARY

Computer Information Systems student at King Faisal University (expected 2027) focused on data analysis and Aspiring AI. Skilled in Python, SQL, and Power BI, with hands-on experience building interactive dashboards and analyzing real datasets. Seeking a data analyst internship to apply analytical skills to real business problems.

TECHNICAL SKILLS

Programming: Python (pandas, NumPy, matplotlib, seaborn)

Databases: MySQL, SQL queries, database design

BI & Visualization: Power BI, Power Query, Excel (Pivot Tables, charts)

Core Skills: Data cleaning, data analysis, KPI reporting, data visualization, dashboard design

Foundations: Machine learning concepts, system analysis & design, enterprise systems

CERTIFICATIONS

- **Introduction to Artificial Intelligence** — KAUST Academy & King Abdullah University of Science and Technology (40 hours; Machine Learning, Deep Learning, Unsupervised Learning), 2026
- **Data Analysis Bootcamp** — Hash Plus (15 hours, project-based), 2026
- **AI Prerequisites: Python Basics** — KAUST Academy (powered by Coursera), 2026
- **Excel Basics for Data Analysis** — IBM via Coursera, 2025

PROJECTS

Riyadh Metro Data Analysis

2026

- Analyzed Riyadh Metro data to explore ridership patterns and station-level trends, cleaning and preparing the dataset before building visualizations to communicate findings.
- Project published on GitHub: github.com/xr3g77

Sales Data Analysis — Hash Plus Bootcamp

2026

- Capstone project of the Hash Plus Data Analysis Bootcamp: analyzed sales data to identify revenue trends, cleaning and transforming the data and building summary reports that highlight actionable business insights.
- Project published on GitHub: github.com/xr3g77

LEADERSHIP EXPERIENCE

Head of Data Analysis Committee — Future Tech Club

2026 – Present

- Lead the data analysis committee, organizing technical activities and learning initiatives for student members.
- Organized and presented one workshop and two bootcamps introducing students to Excel, Python, and Power BI.
- Designed data competitions and analytical challenges to build practical skills among club members.

Co-Founder — SIYQA

2026 – Present

- Co-founded SIYQA to help learners understand data in context and turn concepts into practical skills.
- Contributed to shaping the brand identity, content strategy, and learning experience.
- Supported educational content and project-based resources in data analysis, dashboards, and business insights.

EDUCATION

Bachelor of Computer Information Systems

Aug 2021 – 2027 (Expected)

King Faisal University — Al-Ahsa, Saudi Arabia. Relevant coursework: Database Design, System Analysis and Design, Enterprise Systems.
